Roberto Estrada

"I want to thank all of those at TALK for what they did for my team and me to improve our English level."

Before I started the training classes, my main concern for my job was my English level and mainly to understand my customers; to speak in a way people could understand and write with good grammar. After this training, I showed good improvement. I can feel it and I have been receiving positive feedback at my company about my improvement."

"I still want to learn more and continue improving my English level, but what I achieved with this training was a very good step for me."

Mariel Scalerandi
UPS Americas Region

The caliber of teachers is excellent; they are well trained professionals who are caring and accommodating to the student's demanding business life. UPS is very pleased with Talk International's quality of training, flexibility and its competitive price."
